Becker Automotive Design™

The Becker JetVan™ Mercedes-Benz Designed for Those Who Appreciate the Very Best

Floor Plan C

Year after year, Becker Automotive Design conversions have been consistently named “Best of the Best” in private luxury transportation by *Robb Report* and other lifestyle and business publications.

Becker Automotive Design has earned an international reputation for building the most comfortable, thoroughly appointed and professionally finished conversions available. Which is why private, corporate and government clients worldwide—on four continents—contract Becker when only the best will do.

The Becker JetVan Mercedes-Benz Sprinter provides the ultimate in personal ground transportation. Beginning with the latest-generation Mercedes-Benz Sprinter, the JetVan—available in three body sizes—is offered in six interior configurations.

About the Mercedes-Benz Sprinter

The latest-generation Sprinter is built in Germany by Mercedes-Benz, and offers the finest, safest, and most versatile conversion platform available today.

Quiet

True luxury transportation offers the ambience and amenities commensurate with your highest expectations. The Becker JetVan makes the most of long trips or stop-and-go excursions, and will idle for hours while operating all on-board air conditioning, lighting, office and entertainment systems at full capacity.

Reliable

The Mercedes-Benz six-cylinder turbo Diesel is a proven, clean and low-emission engine that delivers high torque and flexible power. Smooth and fuel efficient, this high-tech drivetrain establishes the benchmark for performance and durability.

Safety

Engineered to the highest standards of occupant safety, the Mercedes-Benz Sprinter incorporates active and passive systems; Load Adaptive Electronic Stability Program, anti-lock braking, skid control, and roll over mitigation; in short, the most advanced safety technology ever offered in its class.

The Ultimate Seating

Becker's proprietary orthopedic, electric lounge seating offers unmatched comfort and luxury. You and your passengers will enjoy a living room experience and arrive at your destination relaxed and refreshed.

Ease of Entry and Exit

Guests of all ages step in and out of Becker's electrically controlled side entry door, comfortably and safely.

The Only Luxury Conversion Approved By Mercedes-Benz

The Becker JetVan Mercedes-Benz Sprinter is the *only* luxury conversion approved under the Mercedes-Benz Customer Assurance Program. Why? Because Becker conversions meet or exceed the same exacting quality and safety standards established by the Mercedes-Benz factory.

The JetVan looks perfectly at home parked next to the world's most beautiful automobiles. Tasteful exterior enhancements include monochromatic paint treatment, front valance with S-Class sedan grill and fog lights, side moldings, rocker panel trim, and wheels that complement the classic Mercedes-Benz style.

The JetVan's walk-in electric sliding door welcomes guests, and luxurious seating inside accommodates up to nine adult passengers. All three body sizes boast extensive leg- and headroom—unmatched by any sedan, limousine or SUV—and extra-height models provide full stand-up headroom for the

ultimate feeling of spaciousness.

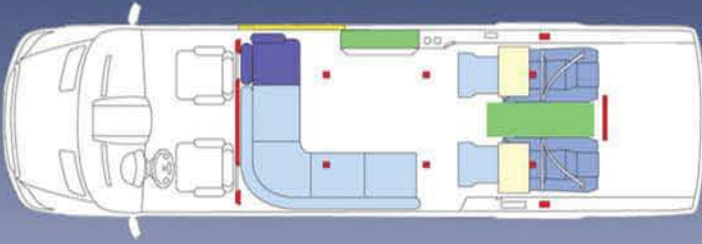

Finest materials and surfaces selected by master craftsmen include aviation-grade leather for seats and panels, Ultraleather walls and headliners, choice burl wood veneers and wool carpeting designed to client specifications.

Aviation-style electric blinds and an optional bulkhead divider offer total privacy, while a heavy-duty climate control system furnishes filtered fresh air—quietly. Aircraft-style LED lighting creates the ambience of a private jet. Available electronics systems—a Becker specialty—include a 40-inch LCD screen with additional personal monitors, surround sound, full computer and Internet capability, and all systems are controlled by easy-to-use touchscreens by Crestron®. Refrigerated beverage stations, and an optional vacuum pump-operated toilet—concealed for privacy—make even long trips a comfortable journey.
